2009 international
stillbirth conference

In collaboration with **28th Conference on
Priorities in Perinatal Care in South Africa**

8-10 March 2009
South Africa, Champagne Sports Resort

For registration and more info contact matinfu@up.ac.za
Or visit www.stillbirthalliance.org

This two-day meeting (8-10th March 2009) will focus on audit and prevention strategies for stillbirth and newborn deaths and providing bereavement care in developing countries. The main program themes will include:

- Caring for parents after a stillbirth or neonatal death;
- Causes of and solutions for perinatal deaths in developing countries;
- Identification and recording of perinatal deaths in developing countries;
- Classification for perinatal deaths which is usable in developing countries;
- The role of growth restriction and infections in perinatal deaths, especially HIV/AIDS.

There will be a joint plenary session followed by parallel sessions for the bereavement and scientific arms. The congress will have workshops in both arms; interactive sessions with experienced bereavement counsellors in the bereavement arm; and workshops on establishing perinatal death review meetings, data collection and analysis.
